EXPERIENCES

Audaces
Fullstack Developer - Florianópolis, SC, BR
August 2023 - February 2024

I worked as a Fullstack Developer at Audaces, a global leader in technological innovation for the fashion industry, where I was actively involved in the company's internal integration processes such as:

• Development of internal systems such as Microservices, APIs, and general applications;
•Creation of relational databases;
•Development of back-end and front-end solutions;
•Improvements in productivity, security, and business integration;
•Integration of internal systems with external platforms (e.g., SAP, Stripe, Bitrix);
•Use of tools like N8N, which performs system integration through Integration Workflows.

•Stacks: Node.js, React, PostgreSQL, SQL Server, MySQL.

Audaces
Fullstack Developer Trainee - Florianópolis, SC, BR
November 2022 - August 2023

While attending a company-sponsored bootcamp, I developed full-stack projects for 10 months until being hired.

• Skilled Full Stack Developer in .NET, C#, and frontend/backend development.
• Experienced in crafting robust backend systems and dynamic frontend interfaces using C# / .NET and Angular.
• MySQL database design, optimization, and management for optimal performance and data integrity.
• Continuously exploring new technologies and methodologies to deliver innovative solutions.

Health Department of the state of Santa Catarina
Support and Infrastructure Analyst - Florianópolis, SC, BR
August 2020 - August 2023

Public server focused on developing improvements for SES-SC's IT infrastructure.

• SQL Server database manipulation.
• Identifying opportunities for improvement in IT processes and systems.
• Experience with server administration, such as Windows Server.
• Experience with VMware virtualization.
• Use of tools such as Zabbix for network control, management, and monitoring.
• Conduct training sessions with other servers on the implemented tools.
• Resolve and diagnose hardware and hospital software issues, escalating as necessary.

Target Communications
Web Developer - Florianópolis, SC, BR
November 2019 - October 2020

• Content Creation and Social Media Management
• Performance Metrics: Monitoring digital media performance through platforms.
• Weekly Reports for Clients: Developing and presenting weekly reports to clients.
• Attractive Design: Creating visually appealing websites.
• User Experience: Ensuring ease of use and a good user experience.
• Design Tools: Using programs like Photoshop and Figma.
• Maintenance and Updates: Maintaining and optimizing websites after launch.
